

If it were not for my Best Beginnings Child Care Scholarship I would not be able to work full time and provide for my family , being that I am a single father with 5 dependent children I gave quite a few worries in my life, but the care of my children when I am at work is not one of these worries. If there was not a program like this for parent like me, who work and need child care but can't afford quality care can afford it with the Best Beginnings Child Care Scholarships. This is a program I whole heartily support and that is needed to keep providing these programs like this one. I would not be able to work if it weren't for Freda Care's Child Care Facility and Butte 4C's Best Beginnings Program.

Cordially,  
Brad Anderson  
A Participating Parent
